**Subject:** UBER

Hi,

I am writing to express my opinion of the order that has ceased UBER transportation activity. My friends and I had planned a trip to New York City to see the ball drop for New Years. Our first night in the city we were terribly lost, not to mention very scared. We've only ever lived in South Carolina, which is a drastic change compared to the city that never sleeps. Finally around 11pm, one of my friends decided to use the UBER app a colleague at work had told her about. They were able to find us in no less than 5 minutes and took us straight to our destination. The cab driver was friendly, drove very well, and we were able to track our progress on the UBER map so we could see exactly where we were going at all times. We learned from the driver that all UBER drivers must have background checks, and although some drivers are full time, there are also other drivers who have other jobs outside of UBER. They drive for UBER after regular work hours or on weekends to make extra money to support themselves and their families. All of the drivers we had were from either New Jersey or New York and were familiar with the area, which was also comforting. We used UBER the rest of the four days we were in the city. Not once did we ever feel unsafe. Each driver picked us up promptly and was kind - not something we expected to find in New York City.

With this being said, I believe that UBER is wonderful! It would be a wonderful service to the thousands of tourists and even locals as it reflects what South Carolina is all about! We strive for excellence, and I can honestly say that this company is a reflection of our reputation.

I ask you to please reconsider this order and seek to support this outstanding company.

Sincerely,

## Easterling, Deborah

I am so upset that SC no longer has uber, this was a safe alternative for me after a night out with friends.

**Subject:** Uber

I'll keep this short and sweet. The future is constantly upon us and we should prepare to be there along side it. Uber should be available to riders in SC. Let us choose who we use to get us around.

Steven

Subject: We need uber

To whom it may concern ,

I am an avid user of uber's services. Almost every weekend I use uber to and from down town. It saves me money in parking but more importantly keeps me and many others from considering driving after a night out. I urge anyone I encounter on a night out to use uber. It's safe and affordable. I even purchase rides for other friends to make sure they get home. I have used the cabs in greenville for years and they are awful. It takes forever to get if you can at all. The cars stink and most cab drivers are not near as friendly as the uber drivers. Taking away this service is a huge mistake and I beg you to reconsider. It is capitalism at its finest. Not to mention keeps the commerce flowing in our city and helps average joes make a few extra bucks. Please reconsider. I beg you
